Tear resistance

Sofa leather: "Leather" is a common word in the leather products market. It is a conventional name for us to distinguish the natural leather from synthetic leather. Animal leather is a kind of natural leather, which we often called "real leather". It is made of animals (raw hides) by tannery tanning processing, becomes leather materials with various characteristics, strength, feel, colors, and patterns. It is a necessary material for modern leather products.

Authentic Serises uses Italian first layer cattle hide, which has been modified and embossed to enhance the appearance of larger particles. It is a natural material which with better elasticity, softness, air permeability, tear resistance.

kvadrat

High-end luxury textile fabrics from Denmark, "Hermès" in fabric brand.

KVADRAT

The word Kvadrat means "square" in Danish. The inspiration for the name came from the scratch paper with small squares that designers and engineers used to draw sketches in the 1960s. Since 1968, Kvadrat has been in a leading position in the field of textile design and innovation. It is an internationally renowned advanced design company dedicated to continuously breaking the boundaries of aesthetics, creativity and technological progress in textile design.

Revive 1

Cigarette & Match

60,000 Martindale

Revive 1

The Revive series fabric uses 100% recycled polyester fiber and has passed Greenguard Gold, HPD, EPD certification. It is durable and wear-resistant up to 50,000 revolutions. At the same time, kvadrat's excellent technology makes Revive fabrics have a very high light fastness and long life as bright as new under time use.

Environmentally friendly

Blazer

The Blazer series fabric is made of 100% Laneve wool, which is softer than other pure wool fabrics. It has a wear resistance of up to 50,000 revolutions. It does not use any chemical treatment. The dyes are all taken from vegetables and are completely degradable. They are certified by EU Flower. Laneve wool The high quality of its own, coupled with Camira's technology, makes the color of the Blazer fabric very pure.

Hafeele

Elegant, classic, minimalist, volatile, and vibrant classic fabric

HAFEELE

The unique weave makes its surface have multiple textures and shadows, which is very dynamic. Creates a subtle color mixing effect, the texture of the fabric is slightly rough, but it enhances the richness based on nuances and highlights the unique color details. Suitable for decoration of complex plane or three-dimensional shape.

Coarse-grained Collection

100% polyester

Long useful life

No bulge or wrinkle

The three-dimensional weaving process has no obvious warp and weft direction, the cloth body is thick, and the cloth surface is flat

Light and dark colors merge into exquisite mixed-color patterns, presenting a unique sense of unevenness.

The mixed-color design can visually weaken the effect of daily wear, improve the durability of the fabric, and prolong the use of furniture.
