

LIP SOFA

design by grado R&D

Lip Sofa (OTE Sunday 10)

It is the warm and soft lips that inspired us to make the Lip Sofa. It's a cleverness for this sofa's design, by showing the structure of the lips, the upper lip is changed into the sofa back, the lower lip into the base, and the tongue, is converted into the cushion.

Lip Sofa (Gabriel Medley GM60167)

The peak and the valley of lip are transformed into the backrest waist curve and the concave turns correspondingly. It looks perfectly round, cute and pleasing. About the application, Lip could be applied to the hotel lobby, leisure area, cafe, library, home and other scenarios.
